1st June, 2009; Jacksonville, FL—June 2009 marks the 22nd year that Northeast Florida has been receiving superior event production services from Sight & Sound Productions. The company, founded in Jacksonville in 1987, is the city's longest standing audiovisual production company, and is proud to have moved to the forefront of the industry over the past 22 years.

Sight & Sound Productions has grown considerably over the past 22 years, and has weathered the changes that come along with such expansion, and, more recently, the repercussions of doing business in a down economy. However, with President and Owner Jon Davis and his formidable sales team and project managers, Sight & Sound Productions has continued to add new clients and mark new milestones. In the past year alone, the company has successfully branched out internationally by managing event production in the Bahamas; launched a brand-new website; had its Director of Sales & Marketing, Alfredo Garcia, be selected as one of the Business Journal's 40 Under 40; added an Event Technology and a Concert Audio department; and acquired a new XLC line array concert system. These are just some of the many accomplishments the company has been proud to announce recently, and are indicative of Sight & Sound Productions upward mobility. These achievements also represent the heights to which the company's sights are set.

Providing the best event production services and 100% client satisfaction remains the goal of everyone at Sight & Sound Productions, and the company plans to stay on the expansion track, and do bigger and better events in an increased geographic range each year. By sticking with the tried-and-true business philosophy of thorough work and quality customer service, optimism runs high throughout the company for continued success.

Sight & Sound Productions is a full-service event production company that executed shows all across the United States and beyond. With fully-trained professionals on staff, the company is dedicated to meeting the varied event needs of their clients, which include companies and organizations such as Winn-Dixie, Medtronic, AFLAC, and the American Heart Association.
